Prior to taking EXS 304, 320, 390, 402, 403, 420, 421 and/or 435, students must have

C or better in all EXS core and track-specific

• completed at least one of the following with a grade of *C* or better: CHE 111, CHE 201, PHY 130, and PHY 131

• earned a minimum 3.0 cumulative grade point average. The 3.0 GPA must be maintained to graduate.

² ŜffyŜää ¢NI·Ŏ]

Prior to taking EXS 415, 433, 445, 446, 465, 469, and 470, students must have

C or better in all EXS core and track-specific

• earned a minimum 2.5 cumulative grade point average. The 2.5 GPA must be maintained to graduate.

Any EXS student that is not adequately progressing through the program and/or has not met program requirements are held to the following:

• If a student earns below a *C*, the course must be retaken the next opportunity it is offered. If the course is not offered the next semester (or circumstances do not permit), but the student meets the cumulative GPA requirements, they will be allowed to progress in other courses.

• If on the third attempt, the student is still unable to earn a *C* better, the course cannot be repeated again for the EXS program and the student can no longer progress through the EXS program.

Nursing

5ŜI·ýY Marcia Hobbs. **Faculty:** Armstrong, Ballard, Byers, Cross, Farrell, Fowler, Garth, Hobbs, Mailow, Naber, Perlow, Springer, Thurmond, Tinsley, Todd.

Nursing ofers two degree programs, the baccalaureate program leading to the Bachelor of Science in Nursing (B.S.N.) and the Doctor of Nursing Practce (D.N.P.). The B.S.N. and D.N.P. are accredited by Commission on Collegiate Nursing Educaton. The D.N.P., Anesthesia Specializaton, is also accredited by the Council on Accreditaton of Nurse Anesthesia Educatonal Programs.

The purpose of the undergraduate nursing program is to prepare:

- a liberally educated individual;
- a professional graduate who practces as a generalist;
- one who is qualifed to pursue graduate study in nursing.

Upon completng the program, students will be eligible to apply to write the licensing examinaton for registered nurses (NCLEX-RN)[1].

The baccalaureate nursing program is typically composed of two semesters of pre-nursing and six semesters of full-tme study in the arts, sciences, and nursing. Upon completon of necessary prerequisite courses, students may apply for formal admission to the nursing program. This typically occurs the beginning of the sophomore year of study. Proof of up-to-date immunizatons, tuberculin testng, CPR certfcaton, professional liability insurance, background check, and drug screening must be submited upon acceptance to the program. Failure to submit documents can result in mandated withdrawal or failure in the program. The prerequisite courses for admission consideraton are BIO 227, BIO 228, CHE 111, COM 161, ENG 105, MAT 140, and PSY 180. A grade point average of 3.00 and 30 hours completed are the minimum standards for admission into the program. Admission is compettve and based on available space. Students are expected to maintain a grade point average of at least 2.00 and may pursue either a full-tme or part-tme (with approval) course of study. Licensed practcal nurses may apply for NUR 206 credit upon successful completon of NUR 200, 201, and 205.

Students must earn a grade of *C* or beter in all course work. Students must pass both theory and clinical practce in all clinical nursing courses or the entre course must be repeated. Once a student has a clinical failure, the student will receive an *E* and may not withdraw from the course, regardless of the university calendar. If a transfer student earned a *D* *E* it counts as a frst failure in the MSU program. A student who must repeat a course is admited to future courses on a space-available basis.

If a grade less than *C* is received in one nursing course, the student may repeat the course as soon as it is ofered on a space-available basis. If a grade less than *C* is received in one nursing course for the second tme, the course cannot be repeated and the student is not eligible for readmission. If two nursing courses are failed (less *C*), the student is dismissed from the program, and is not eligible for readmission to the same opton (the optons are pre-licensure B.S.N. and R.N.-B.S.N.).

Admission deadlines are May 1, for fall semesters and December 1 for spring semesters. Clinical facilites require drug screening and criminal background checks.

Students are responsible for the purchase of uniforms, miscellaneous equipment and transportaton during their program of study. Undergraduate nursing course clinical hours are calculated on a one-credit-hour-to-three-clinical-hour rato. Clinical courses usually require more clinical hours than are listed in the class schedules. Students are encouraged to check with advisors about the necessary tme commitment.

Detailed informaton about these and other policies, such as academic honesty and confdentality, is available from the School *MSU Student Handbook*.

For further informaton write: Nursing Program, Murray State University, 120 Mason Hall, Murray KY 42071-3302.

[1]Applicants must submit a certfed copy of the court record of each misdemeanor or felony convicton and a leter of explanaton that addresses each convicton. (201 KAR 20:270).
